PROFESSIONAL SUMMARY

- As a first-year MCA Student at Jaipur National University, I am proficient in **HTML, CSS, and JavaScript**, with elementary knowledge of **Node.js, React, Express, and MongoDB**. I possess strong foundational knowledge in web development and machine learning. My strong communication skills, problem-solving abilities, and analytical thinking drive my enthusiasm for innovation and growth in dynamic environments.

EDUCATION

- Masters of Computer Application (MCA)**
JNU University (2024 – 2026)
- Bachelor of Computer Application (BCA)**
ABS collage Lalganj, Vaishali [2021 - 2024]
CGPA: 8.4/10
- High Secondary - PCM**
+2 H S Kartahan
Vaishali[2021]
Percentage : 74.6

SKILLS

- Programming Languages** : Python , Javascript , C , C++ , SQL
- Web Dev**: Flask , HTML, CSS, Javascript
- Coursework**: DSA, OS, Computer Networks, Software Engineering
- Libraries** : Node, React, Express, Pandas, Numpy
- Version Control** : Git
- Database** : Relational Database (MySQL)
- Soft Skills**: Communication skills , Problem solving, Teamwork

INTERSHIPS AND TRAINING

- ML Intern** July 2024 – August 2024
iNeuron, Jaipur
Worked on “Book Recommendation Web App” Project
Worked on data cleaning , model training and combining ML with frontend
- Trainee** July 2024 – August 2024
Learn and Build , Jaipur
Hands on experience on Python Programming Language

PROJECTS

- Book Recommendation Web App with ML** [Html, CSS, JS, Python, Flask]
 - Developed a machine learning model utilizing **the K-Nearest Neighbors (KNN)** algorithm to provide personalized book recommendations based on attributes such as titles, authors, publishers, and ratings.
 - Dataset: A comprehensive dataset **comprising 11,000 books** to train and evaluate the model.
 - Utilized **Python** for backend development with **Flask** as the framework, and **HTML/CSS** for frontend design.
 - Incorporated **Pandas** for data manipulation and Scikit-learn for machine learning.
 - Documented the architecture, wireframes, and detailed system designs in over 50 pages combined.
- News Updates Website** [Html, CSS, JavaScript]
 - Developed a dynamic website** that provides real-time news updates by integrating the Newsorg API using JavaScript.
 - Frontend Development**: Created an intuitive user interface utilizing HTML for structure, CSS for styling, and JavaScript for functionality.
 - API Integration**: Implemented API calls to fetch news articles based on various queries.

CERTIFICATIONS

- C certification by **Spoken Tutorial**.
- C++ certifications by **Spoken Tutorials**.
- Html certifications by **Spoken Tutorials**.
